SUELO LAMINADO PREMIUM

*PREMIUM LAMINATE FLOORING*

# FAUS INTERNATIONAL FLOORING

Nuestra empresa es sinónimo de innovación, diseño y calidad desde hace más de 70 años. Una trayectoria consolidada que nos ha convertido en referentes en el sector del suelo laminado, siempre con la mirada puesta en el futuro y en el respeto por el entorno.

En nuestras propias instalaciones damos forma a suelos que combinan belleza, resistencia y tecnología avanzada, pensados para acompañar el ritmo de la vida diaria y realzar cualquier espacio, tanto residencial como profesional.

La constante inversión en tecnología y desarrollo nos permite ofrecer productos con un diseño exclusivo, altas prestaciones y un acabado excepcional, creando superficies que no solo se ven, sino que se viven.

*Our company has been synonymous with innovation, design, and quality for over 70 years. A solid track record that has established us as a benchmark in the laminate flooring sector, always looking to the future and committed to respect the environment.*

*At our own facilities, we create floors that combine beauty, durability, and advanced technology—designed to keep pace with everyday life and enhance any space, whether residential or commercial.*

*Continuous investment in technology and development allows us to offer products with exclusive design, high performance, and exceptional finishes, creating surfaces that are not only seen, but experienced.*

# COMPROMISO AMBIENTAL

En FAUS, la sostenibilidad guía cada decisión. Apostamos por procesos responsables, la eficiencia energética y el uso de materiales de origen sostenible, avalados por la certificación PEFC, para reducir nuestro impacto ambiental en toda la cadena de valor.

# *ENVIRONMENTAL COMMITMENT*

*At FAUS, sustainability guides every decision we make. We are committed to responsible processes, energy efficiency, and the use of sustainably sourced materials, supported by PEFC certification, to reduce our environmental impact across the entire value chain.*

# DESARROLLO SOSTENIBLE

En FAUS, cada decisión que tomamos hoy tiene un impacto directo en el mañana. Por ello, orientamos nuestras prácticas hacia un modelo de desarrollo sostenible que equilibra el crecimiento económico, el respeto por el medio ambiente y el bienestar de las personas que forman parte de nuestra organización, contribuyendo así a un futuro más responsable para las próximas generaciones.

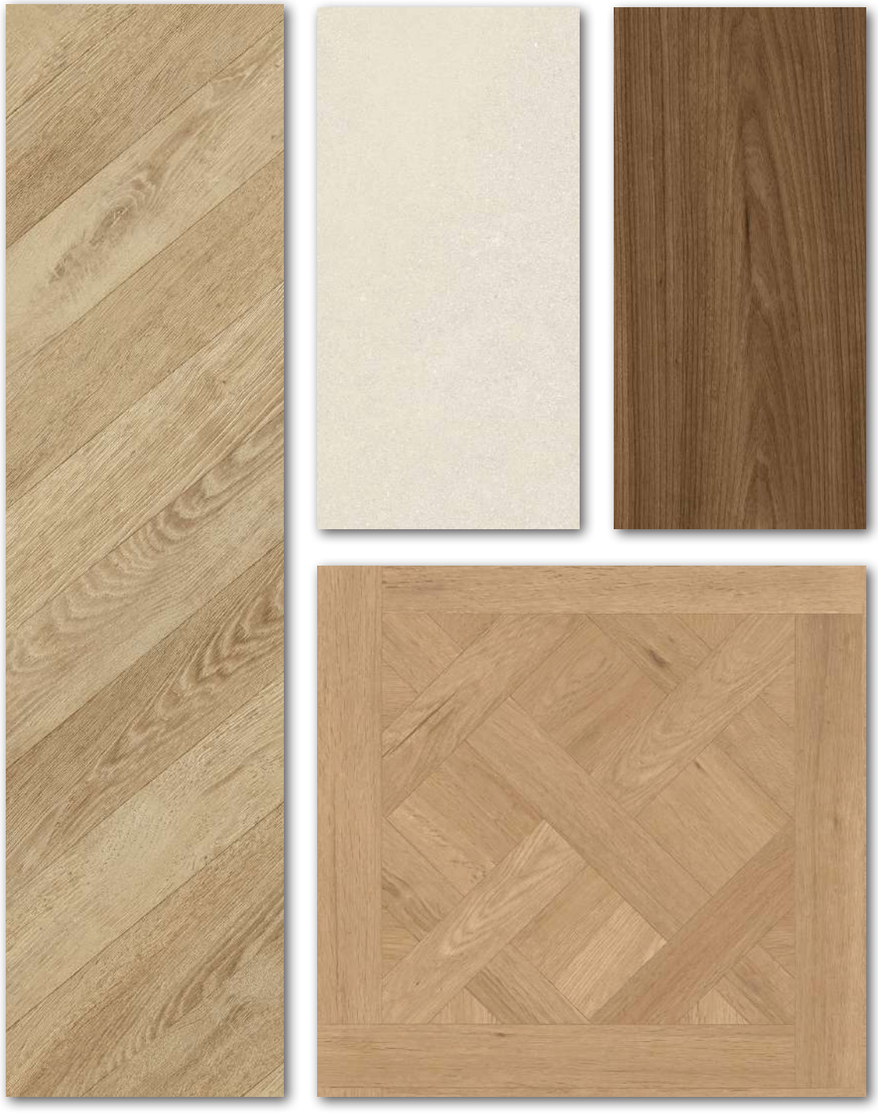

# *SUSTAINABLE DEVELOPMENT*

*At FAUS, every decision we make today has a direct impact on tomorrow. For this reason, we align our practices with a sustainable development model that balances economic growth, environmental responsibility, and the well-being of the people who are part of our organization—contributing to a more responsible future for generations to come.*

Texturas hiperrealistas que reproducen con precisión la madera, la piedra y los acabados cerámicos, manteniendo el confort del laminado.

*Hyper-realistic textures that accurately reproduce wood, stone, and ceramic finishes, while preserving the comfort of laminate flooring..*

Acabado extra mate para maderas y piedras que intensifica el realismo y mantiene el confort y la resistencia del suelo laminado

*Extra-matt finish for wood and stone designs that enhances realism while maintaining the comfort and durability of laminate flooring*

El acabado Granito ofrece una textura mineral de efecto mate, inspirada en superficies pétreas naturales, que aporta profundidad y sobriedad.

*Granite finish features a mineral, matt-effect texture inspired by natural stone surfaces, adding depth and a refined, understated character.*

## CONTINUIDAD ENTRE LAMAS

## MULTIWIDTH

El formato extra ancho de los suelos FAUS integra en una única lama de 40 cm un diseño de entablillado compuesto por tres anchos diferenciados (20, 12 y 8 cm). Esta solución técnica permite reproducir un patrón equilibrado y uniforme, aportando mayor estabilidad visual y una sensación de amplitud en la superficie instalada.

*The extra-wide format of FAUS flooring integrates, within a single 40 cm plank, a strip design composed of three different widths (20, 12, and 8 cm). This technical solution reproduces a balanced and uniform pattern, providing greater visual stability and a sense of spaciousness across the installed surface.*
