AMORIM CORK SOLUTIONS

Sustainable lifestyles.

Making a difference in environmental issues is more than having eco-friendly products.
It requires commitment to a sustainable lifestyle.
Wicanders Cork Pure Signature collection offers solutions for people who know the importance of changing attitudes to enhance personal spaces and make the world a better place.

How? By using the most amazing solution provided by nature: cork. The cork bark contains 60% of air, making it a nature's wonder.

A DIFFERENT CONCEPT

CORK PURE SIGNATURE IS DIFFERENT IN EVERY WAY.
IN QUALITY, SUSTAINABILITY AND COMFORT.
BUT THE MOST IMPORTANT IS THE POSSIBILITY TO CREATE
CUSTOMIZED SPACES INSPIRED BY PERSONAL STYLES.

WHEN NEGATIVE IS EXTREMELY POSITIVE...

It's a breakthrough: it means that more carbon is removed from the atmosphere than the one emitted to produce Cork Pure Signature. For this reason these products are CLIMATE POSITIVE.
IT ABSORBS CO_2 FROM THE ATMOSPHERE.

A well-managed cork oak forest can retain 14.7 tons of CO_2 per hectare and per year.

But it is more than a simple promise, because this goal is expressed by real benefits.

Wicanders provides a high level of indoor air quality.
It is a product designed and manufactured in Portugal, a country with centuries-old tradition in the cork industry.
IT HELPS TO REDUCE GLOBAL WARMING.

THE BENEFITS

Smart choices, amazing sensations is Wicanders statement to the consumer. Cork Pure Signature has an extraordinary comfort, even when walking barefoot.

The optimal floor temperature - all year round – and its superior impact resistance are irrefutable reasons to prefer this product.

One of the most important attribute of this high-end product is its sound insulation properties: cork reduces the walking sound up to 53%.

BEST IN CLASS

Besides its performance factors, Wicanders is the Best in Class in indoor air quality.

This status is confirmed by international certifications such as Green Guard Gold, TUV, LEAD, BREEAM and the A+ label (French content rating and VOC emission level).

In order to achieve these certifications, Wicanders Wise products went through rigorous tests on over more than 2000 potential chemicals.

MADE IN PORTUGAL

Eco-friendly by nature

AMORIM CORK SOLUTIONS IS THE LARGEST CORK-BASED FLOORING COMPANY IN THE WORLD.

The concept of sustainability is built in three axes: environment, economy and social impact.

Environment
No trees are damaged or cut down during harvesting. The cork oak tree retains 5x more CO_2 from the atmosphere than other trees, helping to reduce Global Warming Potential (GWP).

Economy
Cork harvesting is the highest paid agricultural job in the world. WWF estimates that more than 100,000 people are economically dependent of cork-related business activities.

Social Impact
The cork industry promotes settlement in areas at risk of desertification. Cork harvesting is an activity that crosses generations.

SUSTAINABILITY IS A CONCEPT THAT ONLY MAKES SENSE WHEN EVERYONE WINS: NATURE, ECONOMY AND PEOPLE. CORK PURE SIGNATURE PRODUCTS ARE DESIGNED TO EXPRESS THIS PREMISE.

THE GUIDE TO CREATE YOUR UNIQUE SPACE

STEP 1
CHOOSE YOUR COLOUR

THE POWER OF COLOURS

Colors are powerful. Each colour can evoke feelings and passions.
But it's not just for the eyes. A colour has the power to stimulate the brain
and trigger senses, such as the unique pleasure of discovering a space full
of charm and character. If you like colours and vibrations, Cork Pure Signature offers 31 colours
to create a new standard to express distinct states of mind.

4 FINISHINGS

Sanded: For those seeking a customized solution, the Sanded option is the perfect choice. The surface is prepared to be finished on site, so you can select the finish that best suits your needs.

PU PF: To provide a natural look and a soft touch, PU PF (pre-finished) is the right solution to be finished on site, but in a faster way due to the factory pre-applied coating.

XtraMatt+: High Resistance Acrylic UV finish
suitable for residential and light commercial areas. It enhances the natural beauty and environmental friendly properties of cork floors, while assuring a high performance for a long time.

HRT: HIGH RESISTANCE TECHNOLOGY
Highly elastic resin, resulting on a natural and flexible surface with a superior wear resistance. HRT is micro scratch resistant, prevents color shading and wear resistance for heavy commercial areas and provides a warm and pleasant feeling on touch.
